“Success is the sum of small efforts repeated day in and day out”.

Dear Parents,

Summer Vacation is a time for the children to enjoy and relax. These days are precious and valuable and can be made most from if judiciously used. We should always remind ourselves that children will not remember us for the gifts we shower upon them but will always cherish the time we spent with them. It's time to nurture young minds, inculcate moral values and narrate family anecdotes to keep them in touch with their roots.

Few tips to make the vacation a fruitful time for your child.

Its SUMMER TIME again. Time for strengthening family bond, tying threads of family tree, sharing joys and sorrows, having a good time together.

Look for interesting books and read as much as you can about the places and people. Take good care of your health and hygiene. Avoid heavy and oily food and increase intake of fresh fruits and water to keep yourself well hydrated and energetic.

Use Holiday Assignment as an opportunity to spend quality time together. The role of the parent is to be a facilitator and guide to steer the child in the right direction.

Encourage your child to take up yoga or any other form of healthy activity during the vacation.

Involve children in household chores.

Enjoy walking with them in parks and appreciate nature.

General Instructions:-

Bring holidays homework neatly decorated.

Take printouts of worksheet on A4 size sheet and do the assignment neatly as directed.

We are not expecting a work of art completed by parents, just help your ward and encourage him/her to do the task themselves.

Original work by the child shall be acknowledged. Project / Homework will be assessed and awarded on the basis of neatness and creativity.

Follow the guidelines given by teachers to complete specific activities.

HAPPY HOLIDAYS
